

X is for *X-ray*,

for kids and grownups, too,

and a *xylophone* that's
just for you!

X marks the spot so we know
the way,

and x is for machines that *Xerox*®
all day!

You can hear the x is number *six*

and at the end of the little
word *fix*!

You can hear the x in this
special *box*,

but there's nothing special
about chicken *pox*!
